

HCFA Saline Training

Objective

To equip healthcare workers to be witnesses for Christ in their clinical settings. The Biblically based teaching is relevant to different cultures and healthcare settings and has been taught on every continent.

How

The Saline Training equips, trains, and coaches healthcare workers to skilfully and confidently assess the spiritual condition of a patient. By providing practical tools, the Saline Process enables participants to personalize an approach to share the love of Jesus according to each patient's needs.

What we offer

Saline Process Taster

The Saline taster is a brief overview of the Saline Process Witness training in one hour.

Saline Process Witness Training (SPWT) Workshop

We are happy to run this in person as well as through the virtual platform.

We can negotiate time to run it to suite a group of healthcare workers in your workplace.

Discuss and implement the big 5 questions:

1. Why is faith important in healthcare?
2. What are the opportunities and barriers to fulfilling God's call?
3. What is my part?
4. What tools will help me cultivate, sow and harvest?
5. Where do I go from here?

Practical training sessions (Zoom)

Practical sessions to address key concepts from the Saline Process Witness Training Workshop as a follow up. Also called "Growing as Witnesses".

How can I take part?

If you would like to take part in any of the activities or want further information please email: salinewitnesstraining@gmail.com. All are welcome to take part.

'Let your conversation be always full of grace, seasoned with salt,

so that you may know how to answer everyone.'

Colossians 4:6
